

## DISCUSSION QUESTIONS FROM CASB 2007 FALL REGIONAL MEETINGS

1. Why do people in our community trust us as leaders of the local school district to educate our children (or why *don't* people trust us)?
2. Why is it important to work with our community to develop an education blueprint to determine the skills students will need to be successful after graduation?
3. You are back in the boardroom after asking these questions of your community. Take what you have heard and turn it into a declarative sentence beginning with:  
**We will work with our community to develop an education blueprint by....**
4. Why are we losing kids?
5. Why do we care about losing kids?
6. You are back in the boardroom after asking these questions of your community. Take what you have heard and turn it into a declarative sentence beginning with:  
**We care about losing kids because.....**
