

**Swine Flu Notice  
Auto-dialer Script  
April 30, 2009**

Hello. This is Mike Paskewicz, Superintendent of Adams 12 Five Star Schools.

You've likely seen news reports about the spread of Swine Flu and that there have been two confirmed cases in Colorado. Neither of those cases is within our school district and **our schools have not been affected.**

To keep you informed about how our schools are preparing to address this health situation, I've written a letter to you which is being sent home with your child today. We've also posted this letter on the district's Website which is [www dot adams 12 dot org](http://www.adams12.org). That's [www dot adams 12 dot org](http://www.adams12.org).

I will continue to keep you informed of any action we may plan to take as we work through this health matter through phone calls, letters or the district's Website. You can also stay informed about the latest information from state health officials by calling 1-877-462-2911. Again...that's 1-877-462-2911.

Thank you.

Care of Adams 12 Five Star Schools
