Starting School Stronger

Collaborating and planning
for a brighter future

Join CEA, CASB, CASE, CDE, the
Rural Alliance, and PEBC to
learn how districts can use
ESSER funds in the upcoming year.

This co-sponsored event will allow school districts to bring
teams of administrators, educators, and school board
members to an in-person convening where they'll learn the
latest about health & safety, mental health & SEL, and
accelerating learning. Teams will also have opportunities to
hear how other districts are planning to use their ESSER
funding. Structured reflection and planning time will be
incorporated throughout the day to allow groups to
synthesize their next steps in these critical areas.

The event is free and participants will receive a light
breakfast, lunch, and fully facilitated whole group sessions
and planning time. **Travel and lodging stipends are
available as well.**

Registration for the event will open on May 28, 2021 and
teams will be accepted on a first come, first served basis.
