

CASB BRIEF - August 20 Vol. 45

Policy & Legal Newsletter

SPECIAL POLICY UPDATE!

This Special Policy Update (SPU) includes minor updates to policies JRA/JRC and KLG, plus a new regulation KLG-R. These changes are pursuant to a state law that passed during the 2025 legislative session (SB25-276) that requires all School Districts to adopt a policy to protect the immigration status of students and their families.

The law requires that Districts adopt this policy by September 1, 2025. Because of this short timeline, we have included information on the Emergency Policy Adoption process. The law included a number of requirements pertaining to data privacy and other security procedures within School Districts, which necessitated more time for policy development on our part.

You may notice this SPU looks different from previous versions—we have streamlined the SPU process by including a link to policy in the form of a redlined Word document in the body of the article, rather than in a separate chart. Because BOCES vary in structure, CASB recommends that each BOCES check the note box at the top of each policy to determine if it is a necessary policy based on the structure of your BOCES.
